Author: Krisztina Hagymási, Zsolt Tulassay

Name of Journal: *World Journal of Gastroenterology*

ESPS Manuscript NO: 5977

The manuscript has been improved according to the suggestions of reviewers:

In connection with reviewer 1:

Our manuscript is the review of the literature, so it's true, that there is no unique idea. However the whole article, and especially Table 1 is an unique synthesis of the present knowledge of this topic. Our article is based on mainly data of meta-analysis (if there's), and we signed usually the quality of the evidence in the text.

Spelling mistakes were corrected.

In connection with reviewer 2:

The sentence with poor evidence in the Conclusion was deleted.

The sentence in the Abstract in connection with beneficial effects of *H. pylori* was rewritten.

Page 4, line 4, "Western" was corrected.

Page 4, line 7, interleukin abbreviation was implanted.

References 64-67 are cited in Table 2.

Reference 76 was originally cited in the Table 2.

References 74-75 are cited in Table 2.

Year of reference 24 was added.

The title and subheads of Table 2 were corrected on the basis of reviewer's suggestions.

In Table 3 "pancreatic cancer" was deleted.

“Thyroiditis” and some other spelling mistakes were corrected.

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Yours sincerely,
