Manuscript Title: Immunosuppressant Treatment for IgG4-Related Sclerosing Cholangitis: A Case Report and Literature Review

Name of Journal: World Journal of Clinical Cases

Comments:

3. Scientific Quality: This is an interesting case report of a rare or underdiagnosed disease. The case report is well described and well written. Also the provided documentation is complete and well explained. I think that a major discussion should be provided on the therapies adopted and the alternative (rituximab)

Our response: Thank you for your comment. We added the sentence about Rituximab therapy in IgG4RD with reference.

: rituximab is an effective alternative and can lead to both substantial reduction of serum IgG4 concentration and clinical improvement. This agent works by depleting the pool of B cells that replenish the IgG4-secreting plasma cells^[11]. (line 167-169)

4. Language Quality:

Please resolve all language issues in the manuscript based on the peer review report. Please be sure to have a native-English speaker edit the manuscript for grammar, sentence structure, word usage, spelling, capitalization, punctuation, format, and general readability, so that the manuscript's language will meet our direct publishing needs.

Our response: The English in this document has been checked by at least two professional editors, both native speakers of English. For a certificate, please see:

<http://www.textcheck.com/certificate/8VIpZs> (line 233-236)

5. Authors must revise the manuscript according to the Editorial Office's comments and suggestions, which are listed below:

1) Scientific editor's comment: However, a major discussion should be provided on the therapies adopted and the alternative (rituximab);

Our response: Thank you for your comment. We added the sentence about Rituximab therapy in IgG4RD with reference.

: rituximab is an effective alternative and can lead to both substantial reduction of serum IgG4 concentration and clinical improvement. This agent works by depleting the pool of B cells that replenish the IgG4-secreting plasma cells[11]. (line 167-169)

(1) The authors did not provide original pictures. Please provide the original figure documents. Please prepare and arrange the figures using PowerPoint to ensure that all graphs or arrows or text portions can be reprocessed by the editor;

Our response: Thank you for your comment. I will attach original pictures and PPT format.

(2) PMID and DOI numbers are missing in the reference list. Please provide the PubMed numbers and DOI citation numbers.

Our response: Thank you for your comment. I correct reference with PMID and DOI.
