

Dear Editors and Reviewers:

Thank you for your letter and for the reviewers' comments concerning our manuscript entitled "**Renal failure and hepatitis following the ingestion of raw grass carp gallbladder: a case report**" (ID: 59926). Those comments are all valuable and very helpful for revising and improving our paper. We have studied comments carefully and have made correction which we hope meet with approval. We are sending the revised manuscript according to the comments of the reviewers.

The main corrections in the paper and the responds to the reviewer's comments are as following:

Responds to the reviewer's comments:

### 1.discussion is quite long

We have reduced approximately 20% words in the discussion part , and condensed serious messages into short. Meanwhile, we have checked the entire manuscript for logic, flow, and clarity. These changes will not influence the content and framework of the paper. Revised portion are marked in red and strikeout.

### 2.similar version hosted on research square.

Our manuscript has been posted on the Research Square in the course of the submission to another journal. We're pretty sure this article has not been published in any journal.

### 3.Response to comment (the "Case Presentation" did not meet our requirements)

We have reviewed the "Case Presentation" part, "FINAL DIAGNOSIS", "TREATMENT", and "OUTCOME AND FOLLOW-UP" section have been included.

We tried our best to improve the manuscript and made some changes in the manuscript.

We marked them in red and ~~strikeout~~. We appreciate for Editors and Reviewers' warm work earnestly, and hope that the correction will meet with approval.

Once again, thank you very much for your comments and suggestion.

Best regards,

Wen Huang,

The Second Affiliated Hospital of Wenzhou Medical University
