

## English Editing Certificate

Dear Editors,

Our manuscript entitled “Selective ablation of type 3 adenylyl cyclase in somatostatin positive interneurons produces anxiety and depression-like behaviors in mice” was written by Xiao-Yu Yang, Daniel R Storm and Hong Cao.

Storm DR is currently a professor at University of Washington. He is a native speaker of English and has revised and edited the manuscript very carefully. I hope the manuscript’s language will meet the direct peer review needs.

Thank you for your consideration.

Sincerely yours,

Hong Cao Ph.D.
