SPECIFIC COMMENTS TO AUTHORS

I suggest few corrections/ changes for further improvement of submitted manuscript. These are as follows: 1. recheck and rewrite the keywords (not properly arranged), some are not required. 2. Few symbolic/icons are not visible, check and correct it. 3. Suggest to minimize the two section about the immune function of MenSCs, reduced and rewrite these. 4. Authors must be careful such sentences like..." Although this study was based on a single case, ..." its not validate the submitted work. 5. Typos errors need to correct throughout the submitted manuscript. 6. Citations are necessary to updated, following recently published articles must be included within the relevant text part of the manuscript.1) DOI: 10.4103/1995-7645.281613;DOI: 10.26355/eurrev_202004_20871;DOI: 10.1002/jmv.25736; DOI: 10.1016/j.arcmed.2020.05.001;DOI: 10.1002/jmv.25997; doi.org/10.3389/fphar.2020.01258
