

# CARE Checklist – 2016: Information for writing a case report

Topic	Item	Checklist item description	Line/Page
Title Key Words	1	The words "case report" should be in the title along with the area of focus	OK
	2	Four to seven key words—Include "case report" as one of the key words	OK
Abstract	3a	Background: What does this case report add to the medical literature?	Yes.
	3b	Case summary: chief complaint, diagnoses, interventions, and outcomes	Yes.
	3c	Conclusion: What is the main "take-away" lesson from this case?	Yes.
Introduction	4	The current standard of care and contributions of this case—with references (1-2 paragraphs)	Yes.
Timeline	5	Information from this case report organized into a timeline (table or figure)	Yes.
Patient Information	6a	De-identified demographic and other patient or client specific information	Yes.
	6b	Chief complaint—what prompted this visit?	Yes.
	6c	Relevant history including past interventions and outcomes	Yes.
Physical Exam	7	Relevant physical examination findings	Yes.
Diagnostic Assessment	8a	Evaluations such as surveys, laboratory testing, imaging, etc.	Yes.
	8b	Diagnostic reasoning including other diagnoses considered and challenges	Yes.
	8c	Consider tables or figures linking assessment, diagnoses and interventions	Yes.
	8d	Prognostic characteristics where applicable	Yes.
Interventions	9a	Types such as life-style recommendations, treatments, medications, surgery	Yes.
	9b	Intervention administration such as dosage, frequency and duration	Yes.
	9c	Note changes in intervention with explanation	Yes.
	9d	Other concurrent interventions	Yes.
Follow-up and Outcomes	10a	Clinician assessment (and patient or client assessed outcomes when appropriate)	Yes.
	10b	Important follow-up diagnostic evaluations	Yes.
	10c	Assessment of intervention adherence and tolerability, including adverse events	Yes.
Discussion	11a	Strengths and limitations in your approach to this case	Yes.
	11b	Specify how this case report informs practice or Clinical Practice Guidelines (CPG)	Yes.
	11c	How does this case report suggest a testable hypothesis?	Yes.
	11d	Conclusions and rationale	Yes.
Patient Perspective	12	When appropriate include the assessment of the patient or client on this episode of care	Yes.
Informed Consent	13	Informed consent from the person who is the subject of this case report is required by most journals	Yes.
Additional Information	14	Acknowledgement section; Competing Interests; IRB approval when required	Yes.
