## **SPECIFIC COMMENTS TO AUTHORS**

General Comment: Interesting case report regarding Covid-19 infection considering the atypical clinical presentation of the infection. The case is well described, minor changes are needed. Specific Comments: - Introduction: the third sentence regarding vaccines should be modified since currently vaccines are available. - Discussion: in regards of atypical Covid-19 cases, additionally to CT scan, also a reference about PET/CT imaging should be inserted in the manuscript since the Covid-19 diagnosis may be also incidental and unknown in patients undergone PET/TC imaging; the following reference could be appropriate: FDG-PET/CT imaging during the Covid-19 emergency: a southern Italian perspective. *Eur J Nucl Med Mol Imaging*. 2020 Oct;47(11):2691-2697. doi: 10.1007/s00259-020-04931-7.
