Incubation Period in Traveler...

The Importa

The incubation period (time from exposure to the development of symptoms) of the virus is estimated to be between 2 and 14 days based on the following sources: 1. The World Health Organization (WHO) reported an incubation period for COVID-19 between 2 and 10 days. [1] 2. China's National Health Commission (NHC) had initially estimated an incubation period from 10 to 14 days [2]. 3. The United States' CDC estimates the incubation period for COVID-19 to be between 2 and 14 days [3]. 4. DXY.cn...
