Feb 22, 2018 · Spontaneous coronary artery dissection can present as an acute coronary syndrome, and the diagnosis can be confirmed using intravascular ultrasound or optical coherence tomography. Spontaneous coronary artery dissection frequently presents in conjunction with other forms of arteriopathy which should be sought actively using dedicated protocols.

Jul 01, 2018 - Spontaneous coronary artery dissection is a rare cause of acute coronary syndrome and sudden cardiac death. We report coronary artery dissection in a 36-year-old woman with retrosternal chest pain 2 weeks after abortion. Electrocardiography showed ST elevation in leads V2-V4 and ST depression in the inferior leads.

Spontaneous coronary dissection should not be ignored in patients with chest pain in autosomal dominant polycystic kidney disease: A case report

Qian J *et al.* A case report with ADPKD

Jun Qian, Yan Lai, Li-Jun Kuang, Fei Chen, Xue-Bo Liu

**Abstract**

**BACKGROUND**

When autosomal dominant polycystic kidney disease (ADPKD) presents with acute coronary syndrome (ACS), the possibility of spontaneous coronary artery dissection (SCAD) should be highly considered. In some cases, SCAD is considered an extrarenal manifestation of ADPKD depending on the pathological characteristics of the unstable

### Spontaneous coronary artery dissection in a patient with ...

<https://academic.oup.com/ehjcr/article/3/4/1/5675645> ▾

Dec 13, 2019 · Autosomal dominant polycystic kidney disease associated arteriopathy predisposes to SCAD and high doses of corticosteroids, given in the transplant setting, may trigger the event. Caregivers should be aware of this association when evaluating ADPKD patients with chest pain. Most cases can be managed conservatively with medical management.

Jul 01, 2017 · Learning objectives Spontaneous coronary artery dissection (SCAD) is an increasingly recognised cause of non-atherosclerotic acute coronary syndromes leading to myocardial infarction. It is characterised by the presence of blood entering and separating the layers of the coronary arterial wall to form a false lumen. This leads to external compression of the true coronary lumen ...
