

December 16, 2020

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 60743-Revised Manuscript.doc).

Title: Madelung disease: A case report

Author: Ke-Ke Chen, Lian -Song Ni, Wei-Hui Yu

Name of Journal: World Journal of Clinical Cases

Manuscript NO: 60743

Thank you for editor and reviewers' comments concerning our manuscript entitle "Madelung disease: A case report". We would like to thank the reviewers for thoroughly reviewing our manuscript and making many thoughtful comments. We have studied comments carefully and have made correction which we hope to meet with approval. Revised portion are marked in red in the paper. The manuscript has been improved according to the suggestions of reviewers:

1.it would be more instructive if photos of the case had been added. please remember that diabetes is a common associated factor as well.

Thanks to the reviewer's recommendation. In the manuscript , I have showed photos of fat deposits in different parts of the patient with Madelung disease (Figure 1) , and CT scan (Figure 2) , to help readers better understand the disease. At present, the specific etiology and pathogenesis of Madelung disease are still unclear. Madelung disease is prone to accompany with endocrine diseases such as diabetes and gout, which may be related to multiple metabolic disorders in internal medicine, I have added a reference(references17) based on expert advice.

Thank you for publishing our manuscript in the World Journal of Clinical Cases.

Sincerely yours,

Wei-Hui Yu
