Emerging roles of long noncoding RNAs in ...

https://europepmc.org/article/PMC/PMC7743012

primary biliary cholangitis pCCA perihilar cholangiocarcinoma PCNA ... lncRNAs may have more advantages as biomarkers for the diagnosis and prognosis of CCA . As mentioned above, ... Other lncRNAs associated with PFS and OS of CCA patients are summarized in Table 3.

S100A6 protein as a marker for differential diagnosis of ...

https://www.researchgate.net/publication/11195841...

A new marker useful for differential diagnosis of cholangiocarcinoma (CC) from hepatocellular carcinoma (HCC) has been identified and investigated. cDNA clone for S100A6 (calcyclin) was identified ...

Emerging roles of long noncoding RNAs in ...

https://onlinelibrary.wiley.com/doi/10.1002/cac2.12109

Prostate cancer-associated 3 (PCA3), the first lncRNA identified to be abnormally expressed in cancer, is already being used as a biomarker in prostate cancer for clinical diagnosis . Along with increasing publications regarding the mechanism of lncRNAs, the roles of lncRNAs ...

The **S100 calcium binding protein A6** (S100A6) was identified as a universal marker of activated HSC, myofibroblasts (MFB), for both mRNA and **protein** expression . The so-called transdifferentiation of the resting and vitamin A storing HSC into MFB, which are proliferative and which express huge amounts of collagen, is central for fibrogenesis [22].
