total hip and **knee replacement** in Australia is expected to increase by 208% and 276%, respectively, by the year 2030.6 Unfortunately, as a result of the **COVID-19 pandemic**, a nationwide, temporary suspension of non-urgent elective surgery was implemented. Thousands of **patients** waiting for **joint replacement** surgery have **been** affected.

[What to Do If Your Orthopaedic Surgery Is Postponed ...](#)

<https://orthoinfo.aaos.org/.../what-to-do-if-your-orthopaedic-surgery-is-postponed> ▾

Many orthopaedic procedures fall into this category. While an orthopaedic condition may be painful or limit function, it is usually not life threatening, and surgery can be safely postponed.
