SPECIFIC COMMENTS TO AUTHORS

The article with the title “Promotive action of 2-acetylaminofluorene on hepatic precancerous lesions initiated by diethylnitrosamine in rats; molecular study” is in generally well done, but I would offer these comments to the investigators: 1) Several words throughout the manuscript appear to be merged. Please correct it. 2) Some minor grammatical errors occur. The manuscript contains significant language-related issues. Please correct these types of grammatical errors throughout the paper. 3) The references are quite old. Please add or replace some of the current references with more recent articles.
