ANSWERING EDITOR AND REVIEWERS

Dear Editor,

We have answered all the concerns concerning the manuscript 61372 for World Journal of Transplantation. In particular:

The conflict of interest declaration has been enclosed

The audio core tip has been enclosed as mp3 file

All others requested files are enclosed

Figures are now in power point as requested

A table explaining the figures has been added

A file for the tables has been added. All tables are removable

You have now the manuscript in two different colors. Black is the original, red answering reviewer's comments

Overall, 20 new references have been added

Reviewer's code: 05232520

In definition chapter the number of microbiota has been updated and the suggested study has been added (ref 6)

The term microbiota has been clarified (pg 5) and the terms indigenous microbiota, pathobionts and pathogens have been introduced and used throughout the whole manuscript as suggested

The chapter concerning metabolites has been widely modified both in the microbiota functions and in the chapter concerning transplantation. The discussion has been improved and several metabolites have been added (pgs 10, 11 and 18).

The interactions between metabolites and nervous, immunological and endocrine
