To whom it may concern,

this is to confirm that data processing, methods and techniques of biostatistical analysis of the retrospective cohort study 'Impact of donor-specific antibodies on long-term graft survival with pediatric liver transplantation' underwent biostatistical counseling and review at our Institute. Counselling scientists were Mrs Dr. rer nat. Rosemarie Plaetke and Mr Hans-Peter Brose.

Sincerely,

Hamburg, 05.02.2021  
Gerhard Schön
