

Comments: Interesting work, enriched by very beautiful and detailed radiological images. It certainly provides additional details on a rare topic such as ureteral fistula, in this case made even rarer on a patient with double kidney district

Answer to Reviewer: Thank you.

Answer to Science Editor:

(1) The authors' information should be added in the first page;

The "authors' information" has been added.

(2) The "Author Contributions" section is missing. Please provide the author contributions;

The "Author contribution" has been added.

(3) The authors did not provide original pictures. Please provide the original figure documents. Please prepare and arrange the figures using PowerPoint to ensure that all graphs or arrows or text portions can be reprocessed by the editor.

Uploading the "PowerPoint" file.
