[Lessons learned from bone marrow failure in systemic lupus ...](#)

<https://www.sciencedirect.com/science/article/pii/S0049017217303839>

Aug 01, 2018 · These could include **bone marrow** progenitor cells in the setting of CD55 and CD59 deficiency. It is interesting to note that PNH clones have been found in a large percentage of cases of **bone marrow** failure; in one large series, a clone was present in about 1/3 of 200 AA cases and 20% of approximately 100 myelodysplasia cases.
