

Dear Editor

We thank the editor and reviewer for providing helpful suggestions to improve the quality of the manuscript. Please find below our responses to comments from the reviewers. We have also revised the manuscript accordingly.

1. Question: about Background

Answer: We improve the background section, summarize the different implants available to fix femoral neck fracture.

2. Question: about Methods

Answer: In 1995, the patient underwent orthopedic surgery for poliomyelitis performed by an unknown surgeon. We contact the patient but he cannot answer our question very correct.

3. Question: about Discussion

Answer: we discuss high incidence of osteoporosis and femoral neck fracture. We use Toro G, Moretti A, Paoletta M, De Cicco A, Braile A, Panni AS. Neglected femoral neck fractures in cerebral palsy: a narrative review. EFORT Open Rev. 2020 Jan 29;5(1):58-64. doi: 10.1302/2058-5241.5.190019. PMID: 32071774; as a reference to discuss it.

4. Question: about improvement in the written English

Answer: We had visit the website for the professional English language editing company.

5. Question: about article format

Answer: The authors' information had be added in the first page of the text. We provide the author contributions. We provide the original figure documents. We provide the PubMed numbers and DOI citation numbers to the references. We have re-write the "Case Presentation" section.

Sincerely

Fu-Shan Hou
