

January 16, 2021

Editorial Office,  
*World Journal of Virology*,

Dear Editor in Chief,

Please find enclosed our revised manuscript entitled "**Trends in the management of infectious disease under SARS-CoV-2 era: From pathophysiological comparison of COVID-19 and influenza**", by **Seki M, et al.**

According to the suggestions in your e-mail of January 08, we add as follows:

- **Numbers of graphs, tables, references about the pathogenesis of COVID-19,**
- **Update the treatment and antiviral agents, including favipiravir,**
- **Detailed approach about novel COVID-19 vaccine.**

In addition,

- **Format were revised,**
  - **Authors contribution were add,**
  - **References were changed to square bracket style, and the information of DOI and PMID were add,**
- and grammar checks were performed again by native speakers.**

I certificate that the material submitted for publication has not been previously reported elsewhere and is not under consideration for publication elsewhere. The author have read and approved the content and the authorship of this manuscript.

I hope that the reviewing process finds the manuscript acceptable for publication in your journal "*World Journal of Virology*".

Sincerely yours,

Masafumi Seki, MD, PhD
