Clinical Trial Registration

“Elevated IL-6 levels are associated with impaired outcome in cardiac ATTR amyloidosis”

Dear Prof. Dr. Tousoulis,

We hereby confirm, that no interventional study was conducted and therefore according to our institutional guidelines no clinical trial registration is needed for the study entitled **“Elevated IL-6 levels are associated with impaired outcome in cardiac ATTR amyloidosis”**. Approval of our local ethics committee is adjusted to this submission under the document “Institutional Review Approval”.

Should you need any further information, please do not hesitate to contact me.

Sincerely yours,

Dr. Selina Hein

PD Dr. Mathias Konstandin
