Magic and forensic psychiatry: A case study and review of the literature

Vyshka *et al.* Magic and forensic psychiatry

Gentian Vyshka, Sandër Simoni

Abstract

Forensic psychiatrists routinely appear in courts for crimes that have been perpetrated by mentally ill patients or when the defendant is suffering from a major psychiatric disorder. However, committing crimes under the presumed effects of magic and

Folie à deux and homicide: Literature review and study of ...

<https://pubmed.ncbi.nlm.nih.gov/30454559>

Folie à deux is a psychiatric illness involved in homicides. Objective: To **study** the mechanisms leading to homicide and determine homicide risk factors in folie à deux patients through a **literature review** and the **study** of a complex clinical **case**. Materials and methods: We included articles available on PubMed, ScienceDirect or Cairn that address the **forensic** implications of folie à deux.
