While tumors of the adrenal cortex are not, strictly speaking, part the "diffuse neuroendocrine system," they are often included in neuroendocrine tumor guidelines due to their orphan status. In this update on management of unusual neuroendocrine tumors, we review the biology and treatment of these rare neoplasms .

A less common problem is paraneoplastic cerebellar **degeneration**, which can cause loss of balance and unsteadiness in arm and leg movement, as well as trouble speaking or swallowing. SCLC can also cause other nervous system problems, such as muscle weakness, sensation changes, vision problems, or even changes in behavior.
