

Non-Native Speakers of English Editing Certificate for Oncology Reports

I, Dr. Oriol Mirallas Viñas, the corresponding author of the paper titled “*Acquired hepatocerebral degeneration associated with advanced liver disease due to multi-modality treatments in a metastatic neuroendocrine tumor long-term survivor: An update on neuroendocrine neoplasm’s treatment based on a case report*”, declare that the authors of the present manuscript are non-native English speaker but our manuscript has been reviewed for clarity by a colleague whose native language is English. I would like to recognize the work of Carla Ainscow and Dr. Adam Lassiter Carrera for the English revision of the final manuscript.

A handwritten signature in blue ink, appearing to read "Oriol Mirallas Viñas", written over a horizontal dotted line.

Oriol Mirallas Viñas, MD, (for all authors)

Medical Oncology
