

Using Stem Cells To Treat Perianal ... - Crohn's Disease Forum

<https://crohnsforum.com/threads/using-stem-cells...>

Aug 02, 2019 · The overall healing rate of stem cell injection therapy for patients with complex perianal fistulas was 62.8% (95% CI 53.5-71.2, I² = 54.05%), whereas those for patients with Crohn's perianal fistulas alone and complex anal fistulas not associated with Crohn's disease were 64.1% and 61.5% (p = 0.840), respectively.

Modern Treatments and Stem Cell Therapies for Perianal ...

<https://www.hindawi.com/journals/cjgh/2016/1651570>

Feb 29, 2016 · Crohn's disease (CD) is a complex disorder with important incidence in North America. Perianal fistulas occur in about 20% of patients with CD and are almost always classified as complex fistulas. Conventional treatment options have shown different success rates, yet there are data indicating that these approaches cannot achieve total cure and may not improve quality of life of these patients.

Takeda Development Center Americas, Inc. The drug being tested in this study is called darvadstrocel (Cx601, cell suspension containing 120 million cells of allogeneic expanded adipose-derived mesenchymal stem cells [eASCs]). Darvadstrocel is being tested to treat complex perianal fistula in ...

Efficacy of stem cells therapy for Crohn's fistula: a meta ...

<https://stemcellres.biomedcentral.com/articles/10.1186/s13287-020-02095-7>

Fistulas have puzzled us all the time and stem cell therapy for it is still in its infancy. We conducted a meta-analysis and systematic review to evaluate the efficacy of stem cells and its potential mechanisms in the management of Crohn's fistula. Electronic databases were searched comprehensively for studies reporting the efficacy and safety of stem cells in patients with any form of Crohn ...
