

November 10, 2012

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 6256-review.doc).

Title: Splanchnic vasodilation and hyperdynamic circulatory syndrome in cirrhosis

Authors: Massimo Bolognesi, Marco Di Pascoli, Alberto Verardo, Angelo Gatta

Name of Journal: *World Journal of Gastroenterology*

ESPS Manuscript NO: 6256

The manuscript has been improved according to the suggestions of reviewers:

1. Format has been updated
2. Revision has been made according to the suggestions of the reviewer
 - (1) We added to the revised manuscript a new chapter, summarizing the mechanisms of action on the hemodynamics of the main drugs used in the therapy of the complications of portal hypertension.
 - (2) A new figure describing the associations between vasodilator systems and portal hypertension has been added to the revised manuscript, as requested.
 - (3) We had the paper extensively revised by a mother tongue English teacher, with experience in scientific English. We are now confident that the manuscript will fulfill the requirements of *World Journal of Gastroenterology*.
3. References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

Massimo BOLOGNESI, MD, PhD
