SPECIFIC COMMENTS TO AUTHORS

The current global research landscape on COVID-19 and depressive disorders: Bibliometric and visualization analysis This paper focused on COVID-19 and its impact on mental health, which is interesting. Bibliometric analysis and visualization are used to study the Scopus-based depression research and COVID-19, which is worth to be read. The paper has been written clearly and the structure is qualified, and tables and figures are well shown. The discussion may be deeper if clinical related meaning has been mentioned.
