SPECIFIC COMMENTS TO AUTHORS

This highly timely and interesting Mini Review "Binge-eating and psychostimulant addiction" by M. Carmen Blanco-Gandía and co-authors summarizes the current status of the relationship between the disorders of binge-eating and substance use disorder. The overall content and their presentation are of good quality. My main concerns have to do with the English expression and Grammar. The authors must get this Review edited by a Native English speaking Editor to rectify: 1.Unusual expressions and Grammar 2. Excessive use of abbreviations that must be fully expanded in order to avoid improve READABILITY of this review.
