[Updates in the management of hepatitis B in children](https://pubmed.ncbi.nlm.nih.gov/31663387)

<https://pubmed.ncbi.nlm.nih.gov/31663387>

DOI: 10.1080/17474124.2019.1686975. Abstract. Introduction: Universal infant **hepatitis B** virus (HBV) vaccination program has reduced HBV infection dramatically in vaccinated young generations.

Management of chronically infected children is still challenging concerning high **viral** load with mostly mild diseases, yet with a nonnegligible proportion of advanced diseases, and long-term effect of ...

Management of Hepatitis A in 2020-2021 | Infectious ...

<https://jamanetwork.com/journals/jama/fullarticle/2768154> ▾

Jul 28, 2020 · Hepatitis A virus (**HAV**) is a common cause of viral hepatitis. 1 Following decades of improved sanitation and hygiene measures and the introduction of **HAV vaccination** in 1995, the number of infections in the US declined by nearly 95% between 1996 and 2011, from 31 032 to 1398 reported cases yearly. However, HAV infections increased between 2016 and 2018 with an estimated 15 000 ...
