Our responses to the editor and reviewer's comments:

1. The manuscript lacking the core tip section and writing should follow the journal style especially in the references section.

**Response:Done**

2. In the management section, the authors should consider surgical approach for parotidectomy. In addition, macroscopic and microscopic analysis should be described under different subtitle.

**Response:** Modifications have been made according to the reviewer's suggestion in the revised title page.

3. Figure three legend should be rewritten to be more appropriate for easy understanding.

**Response:** According to the suggestion, Figure three has been modified again.

4.Minor language editing is recommended.

**Response:Done**
