**What is the best surgical procedures of transverse colon cancer?: An evidence map and minireviews**

Chen Li *et al.* Surgical procedures of TCC

### Abstract

Colorectal cancers comprise a large percentage of tumors worldwide, and transverse colon cancer (TCC) is defined as tumors located between hepatic and splenic flexures. Due to the anatomy and embryology complexity, and lack of large randomized controlled trials (RCTs), it is a challenge to standardize TCC surgery. In this study, the current situation of transverse/ extended colectomy, robotic/ laparoscopic/ open surgery and complete mesocolic excision (CME) concept in TCC operations is discussed and a heatmap is conducted to show the evidence level and con
