## Osteoporosis: A Global Health Crisis - NBI

<https://nbihealth.com/osteoporosis-global-health-crisis> ▾

Osteoporosis is currently among the top five conditions causing disability and prolonged hospital stay for elders in Hong Kong. For women aged 65 and over: 45% is **osteoporosis**, 42% is **osteopenia** (low bone mass). For men aged 65 and over: 13% is **osteoporosis**, 47% is **osteopenia**. Singapore

## Prevalence and Predictors of Reduced Bone Density in Child ...

<https://www.sciencedirect.com/science/article/pii/S1094695020300858>

May 18, 2020 · Of the 64 children and adolescents with CD from Saudi Arabia considered in this study, we discovered a relatively high prevalence rate of osteoporosis (39%) and osteopenia (28% and 31% using spine BMD and total body scans, respectively). Data on the prevalence of osteoporosis in IBD patients vary widely in the literature.
