Say something...

Eating Disorder

Symptoms Diagnosis Causes Treatments >

A condition characterized by irregular or abnormal eating habits.

Common types

Anorexia Nervosa

An eating disorder characterized by relentless drive for thinness with a fear of gaining body weight associated with self-induced behaviors towards thinness.

Bulimia Nervosa

Eating disorder characterized by binge eating, followed by methods to avoid weight gain.

Binge Eating Disorder

A disorder involving frequent consumption of large amounts of food, and uncontrollable eating.

Disorders of the brain-gut interaction and eating disorders

ALL IMAGES VIDEOS

9,240,000 Results Any time ▾

In summary, the **brain** and **gut interact** in individuals who are living with **eating disorders**. Abnormal **brain** behaviors can reinforce abnormal **gut** bacteria and vice versa. These changes to the **brain** and **gut** often coexist and reinforce **eating disorder** behavior.
