

Dear reviewer,

Re: manuscript ID: 62823 and title: Risk Factors, Manifestations, Diagnosis and Treatment of Cholelithiasis in Children

Thank you for your comments concerning our manuscript. Those comments are valuable and very helpful.

**Q1. Specific Comments to Authors (Reviewer #1) :** I believe the topic is important as it is reviewing a disease that happen this age group. It was very nicely written and reviewed.

**Response:** Thanks for the recognition of this manuscript by the reviewer, we really started from the actual clinical problems and summarized the etiology, clinical manifestations, diagnosis and treatment characteristics of cholelithiasis in children through literature review, so as to advocate the individualized treatment of cholelithiasis in children, which is different from adult cholelithiasis.

**Q2. Issues raised (Science editor) :** (1) The “Author Contributions” section is missing. Please provide the author contributions; (2) PMID and DOI numbers are missing in the reference list. Please provide the PubMed numbers and DOI citation numbers to the reference list and list all authors of the references. Please revise throughout; (3) Authors should always cite references that are relevant to their study. Please check and remove any

references that not relevant to this study; and (4) Please add table/figure to this review.

**Response:** We fully agree with these suggestions put forward by the science editor, and we have revised all of them in the revised manuscript.

Thank you for allowing us to resubmit a revised copy of the manuscript.

Sincerely,

Fan Yu
