Efficacy and Safety of Systemic Therapies for Advanced ...

<https://pubmed.ncbi.nlm.nih.gov/29234637>

Aim/background: After the introduction of sorafenib in the **treatment** of **advanced hepatocellular carcinoma** (HCC), different studies tried to evaluate whether other **systemic therapies** can improve survival. To provide a comprehensive indirect **treatment** comparison of efficacy and safety of novel drugs, a **network meta-analysis** (NMA) of phase III **randomized controlled trials** was performed.
