Deep-learning based detection of gastric precancerous ... 8 mins read

<https://gut.bmj.com/content/69/1/4> ▾

Jan 01, 2020 · Conventional white-light **endoscopy** has high interobserver variability for the **diagnosis** of gastric **precancerous** conditions. Here we present a **deep-learning** (DL) approach for the **diagnosis** ...

Screening for precancerous lesions of upper ...

<https://www.ncbi.nlm.nih.gov/pubmed/23573079>

Upper gastrointestinal tract cancers are one of the most important leading causes of cancer death worldwide. **Diagnosis** at late stages always brings about poor outcome of these malignancies. The early detection of **precancerous** or early cancerous **lesions** of **gastrointestinal** tract is therefore of utmost importance to improve the overall outcome ...
