Nov 21, 2019 · The diagnosis of pancreatitis in the emergency department has been increasing in the pediatric population over the last 15 years but the etiology of this is uncertain [1,2,3,4,5,6,7,8,9,10]. It is possibly due to increase in rates of childhood obesity and subsequent increase in biliary tract disease [9, 11,12,13,14]. Studies have shown that biliary disease is usually the most common comorbidity ...
