#### **SPECIFIC COMMENTS TO AUTHORS**

Viral hepatitis is still a common clinical disease in the world. A comprehensive understanding of the characteristics of various types of hepatitis is helpful for clinicians to better deal with related clinical problems. The authors provides an overview of viral hepatitis, from epidemiology, viral characteristics to clinical manifestations, and discusses current and future treatments. It is very helpful for clinicians to systematically understand the progress of related disciplines.

#### **SPECIFIC COMMENTS TO AUTHORS**

I would like to say that the authours of the manuscript have adapted well and used the new international research results in this traditional Review article. The manuscript is a well organized one, and the new published research practices in the field of viral hepatitis are applied adequately. I want to appreciate the authors also, for covering all critical aspects of Hepatitis, for example, Epidemiology, Pathophysiology, Imunology and then focusing on new therapeutic options in viral hepatitis, especially in therapeutic vaccines and new drug therapies for HBV. I agree for publishing this manuscript. Thanks for your time and consideration.
