Rare coexistence of multiple manifestations secondary to thalamic hemorrhage: A case report and literature review

Qi-Wei Yu, Tian-Fen Ye, Wen-Jun Qian

Abstract

BACKGROUND

A growing body of literature indicates that the occurrence of thalamic lesions could lead to various dysfunctions, such as somatosensory disturbances, hemiparesis,

A rare case of Sjögren's Syndrome associated with ...<https://www.openaccessjournals.com/articles/a-rare...> ▾

We present a rare case of intracranial hemorrhage as first manifestation of primary SS and a review of the pertinent literature. Introduction. Sjögren Syndrome (SS) is an autoimmune rheumatic disease, whose hallmark is ocular and mouth dryness secondary to autoimmune exocrinopathy . These symptoms are due to excessive lymphocyte infiltration.

Jan 01, 2013 · Cheiro-Oral syndrome secondary to thalamic infarction: a case report and literature review. Shirish Satpute Baltimore Veterans Affairs Medical Center, University of Maryland School of Medicine, Baltimore, MD 21201-1559, USA.

Moyamoya disease manifested as multiple simultaneous ...<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4997912>

Multiple simultaneous intracerebral hemorrhages (MSIH) caused by Moyamoya disease (MMD) is extremely rare. To date, the clinical manifestations, imaging characteristics and mechanism of MMD-induced MSIH have not yet been elucidated. In order to improve the understanding on such cases, the present study described a rare case of MSIH caused by MMD.
