

We thank the Editor and the reviewers for their interest in our manuscript and for giving us the possibility to resubmit it after revision. Changes made according to the comments have been highlighted in yellow in the new version of the manuscript.

Reviewer #1:

Dear authors, congratulations on this interesting article. I enjoyed reading it, it addresses a very important topic. I am not a diabetologist but could get a picture about this issue and correlate to my own experience with telemedicine. Good work. Because this article is supposed to be short, I have no further comments.

*Answer:* thank you for your comment.

Editorial office's comments

Authors must revise the manuscript according to the Editorial Office's comments and suggestions, which are listed below:

(1) Science editor: 1 Scientific quality: The manuscript describes a minireviews of the telemedicine in the Covid-era. The topic is within the scope of the WJD. (1) Classification: Grade B; (2) Summary of the Peer-Review Report: The authors reported an interesting article, which address a very important topic. However, a picture about this issue and correlate to the authors' experience with telemedicine should be added; and (3) Format: There is 1 table. (4) References: A total of 36 references are cited, including 28 references published in the last 3 years; (5) Self-cited references: There are no self-cited references; and (6) References recommend: The authors have the right to refuse to cite improper references recommended by peer reviewer(s), especially the references published by the peer reviewer(s) themselves. If the authors found the peer reviewer(s) request the authors to cite improper references published by themselves, please send the peer reviewer's ID number to the editorialoffice@wjgnet.com. The Editorial Office will close and remove the peer reviewer from the F6Publishing system immediately. 2 Language evaluation: Classification: Grade B. 3 Academic norms and rules: No academic misconduct was found in the Bing search. 4 Supplementary comments: This is an invited manuscript. No financial support was obtained for the study. The topic has not previously been published in the WJD. 5 Recommendation: Conditional acceptance.

*Answer:* thank you for your comments. We have added our experience with telemedicine in introduction section, please see page 3 and 4.
