SPECIFIC COMMENTS TO AUTHORS

Title: Surgery for pancreatic tumors in the midst of COVID-19 pandemic The manuscript deals with an interesting argument, tremendously current, the evaluation of patients with pancreatic tumors, including pancreatic cancer, under the COVID-19 pandemic, and the actual impact of COVID-19 on treatment of patients with pancreatic tumors. The topic has a clinical relevance since the COVID-19 pandemic has changed the routinary management of oncological disease. The manuscript is well written: the title reflects the main subject of the article, abstract well summarize the arguments. The discussion is well articulated according to the most recent literature and the authors have clearly underlined the most vital points in selecting the best therapeutic approach for patients with pancreatic tumors during this pandemic. The tables/figures are representatives and of good quality. The manuscript cites appropriately the latest and authoritative references. Accepted
