

Biostatistics statement

DECLARATION

05 February 2021

To whom it may concern

Title of Study: Comparison of the chondrogenic potential of mesenchymal stem cells  
from synovial fluid, bone marrow, and adipose tissue using a magnetic 3D  
cell culture system

Chief investigator: Raquel Yvonne Arantes Baccarin,  
Department of Clinical Medicine, School of Veterinary Medicine and  
Animals Science, University of São Paulo, São Paulo, Brazil

This letter is to confirm that I performed and verified the ethics application prepared for  
this study, and that in my opinion the statistical methods and techniques mentioned are  
appropriate for the research.

Please contact me if you have any queries.

Sincerely,

Marcilio Nichi, PhD., Department of Animal Reproduction, College of Veterinary  
Medicine and Animal Science, University of São Paulo, Brazil.
