Association between oral contraceptive use as a risk ...

<https://pubmed.ncbi.nlm.nih.gov/28685080>

The present **meta-analysis** indicated that women who use OCs have a greater risk of TNBC compared with women who do not. This conclusion prompts that women who used OCs should be examined more closely in population screenings of breast cancer, as they may ...

Association between oral contraceptive use as a risk ...

<https://www.spandidos-publications.com/10.3892/mco.2017.1259> ▾

The aim of the present **systematic review and meta-analysis** was to evaluate the strength of the **association between the use of oral contraceptives (OCs) and TNBC**. Two databases (PubMed Central/PubMed, Web of Science) and secondary references were searched to identify studies meeting the priorly established inclusion criteria.

[Association between oral contraceptive use as a risk ...](#)

<https://pubmed.ncbi.nlm.nih.gov/28685080>

The present **meta-analysis** indicated that women who **use OCs** have a greater **risk of** TNBC compared with women who do not. This conclusion prompts that women who **used OCs** should be examined more closely in population screenings of breast cancer, as they may benefit from prevention and early detection strategies.

[Oral contraceptives and colorectal cancer risk: a ...](#)

<https://pubmed.ncbi.nlm.nih.gov/19414526>

Background: Various studies have reported an inverse relation **between oral contraceptive (OC) use** and the **risk of colorectal cancer**, but the issue is still open. Methods: In order to quantify the **association between** OC use and **colorectal cancer risk**, we performed a **systematic review and meta-analysis of** studies on this issue. We identified all relevant studies published, in English, as original articles up to December 2008 through a search **of the ...**
