Key issues in transplant tourism

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3812925>

Feb 24, 2012 · Medical tourism has emerged as a global health care phenomenon, valued at \$60 billion worldwide in 2006. With insurance companies in the US beginning to integrate foreign care into their coverage by offering discounts to patients agreeing to overseas travel, medical tourism is projected to become a \$21 billion a year industry in the US by 2011 ...

Medical Tourism: Travel to Another Country for Medical ...

<https://wwwnc.cdc.gov/travel/page/medical-tourism> ▾

Medical Tourism Can Be Risky. Your risk of complications depends on the destination, the facility where the procedure is being performed, and whether you are in the good physical and psychological condition for the procedure(s). Other issues that can increase your risk of complications include: Infectious Disease.
