#### **SPECIFIC COMMENTS TO AUTHORS**

Interesting manuscript, lean and pleasant to read. However, some changes should be made. The title should be changed, for example "myofibroblastic inflammatory tumor of the pancreatic neck: a case report and a review of the literature". If 29 cases are stated in the literature, the authors should specify the research method used, otherwise only a few reported cases should be mentioned. the legends of figures 2 and 3 must be reversed. For each case listed in the table, the appropriate reference should be added. The English language must be revised.
