Dear Editor:

Thank you very much for the critical review of our manuscript entitled “**Recent update on comprehensive therapy for advanced hepatocellular carcinoma**”

We have made the careful revision throughoutly according to the editors and reviewers comments.

We have corrected the capital letters of the words and spelled out the abbreviations which pointed out by the Reviewer 1.

Reviewer 2

We have also re-wrote some sentences in each section and added the summary at the end of the manuscript to emphasize the key points of HCC therapy according to the suggestions by the reviewer 2. The revised parts were in blue color letters.
