Dear Dr. Michaels,

I am not sure whether you also need to ask the journal/authors for permission but from our side I am happy to approve that you can use the image for your manuscript!

Very best wishes

Rainer Goebel  
CEO Brain Innovation  
&  
Professor for Cognitive Neuroscience  
Maastricht University

---

To Whom it May Concern,

I am writing to obtain copyright permission to duplicate an image (please see attached) that was previously published in another article (Peters, J, Kalivas, PW, Quirk, GJ, Extinction circuits for fear and addiction overlap in the prefrontal cortex. Learning Memory, 2009; (787); 999-3057 [PMID: 19380710 DOI.10.1101/lm.1041309]).

I am seeking to duplicate this image for a manuscript (for which I am the first author) titled "Brain Reward Circuitry: The Overlapping Neurobiology of Trauma and Substance Use Disorders" which has been accepted for publication in the World Journal of Psychiatry (published by Baishideng Publishing Group).

Please let me know what additional information you may need. If you approve of the digital reprinting, please send documented approval so that I may provide this to the publisher.

Thanks.

Michaels, Timothy <[tmichaels1@northwell.edu](mailto:tmichaels1@northwell.edu)>

Dear Dr Michaels,

In response to your request regarding permission to use the following material:

Items:	Fig. 3 pp. 281
Book title:	<i>Learning &amp; Memory</i> <b>16</b> : 279–288
Article title:	Extinction circuits for fear and addiction overlap in prefrontal cortex
Authors:	Jamie Peters, Peter W. Kalivas, and Gregory J. Quirk
Publication date:	2009

To be used in:

Title:	Brain Reward Circuitry: Overlapping Neurobiology of Trauma and Substance Use Disorders
Authors/Editors:	Timothy I Michaels, PhD, Emily Stone, BS, Sonali Singal, BS, and Vladan Novakovic, MD
Publisher:	Baishideng Publishing Group Inc
Publication date:	TBD

I confirm that we are willing to grant non-exclusive rights in the English language, subject to the following conditions:

1. Full acknowledgment shall be made to the source, including the complete reference to the *Learning & Memory* article, with copyright held by Cold Spring Harbor Laboratory Press, and indication if any modifications are made.
2. Permission of the author is obtained where possible.
3. Permission is limited to the proposed publication, on a non-exclusive, one-time-only basis, with distribution rights in the English language only, for print and electronic rights only.
4. The permission processing fee has been waived.

\*Please note that we do not grant blanket permissions for future/revised editions, translations, or other formats. If you need any of the aforementioned, please reapply and include details of usage.

Kind regards,

Mala Mazzullo  
Executive Assistant to the Publisher
