1 Impact of COVID-19 on prevention and elimination strategies for hepatitis B & hepatitis C

Rehman ST *et al.* COVID-19 hepatitis

Syed Tabish Rehman, Hareem Rehman, Shahab Abid

16
Abstract

The coronavirus disease-2019 (COVID-19) pandemic has resulted in significant morbidity and mortality since its first case was discovered in December 2019. Since then, multiple countries have witnessed a healthcare system collapse due to the overwhelming demand for COVID-19 care. Drastic measures have been taken globally in order to curb the spread of the virus. However, those measures have led to the
