Cervical Epidural and Retropharyngeal Abscess Induced by a ...

<https://www.sciencedirect.com/science/article/pii/S1873959811000664>

Sep 01, 2011 · Delayed treatment of retropharyngeal abscess (RPA) can cause cervical spinal epidural abscesses, which require urgent treatment. In adult RPA, the most serious and life-threatening complication is airway obstruction. Mediastinal and pleural involvement occur frequently, resulting in suppurative mediastinitis, pyropneumothorax, and pericarditis.
