Portal Hypertension and Related Complications: Diagnosis ...

[https://www.mayoclinicproceedings.org/article/S0025-8199\(18\)31008-5/fulltext](https://www.mayoclinicproceedings.org/article/S0025-8199(18)31008-5/fulltext)

Abstract. Portal hypertension is a major complication of cirrhosis, and its consequences, including ascites, esophageal varices, hepatic encephalopathy, and hepatorenal syndrome, lead to substantial morbidity and mortality. Portal hypertension is defined as a hepatic venous pressure gradient greater than 5 mmHg. Cirrhosis is the most common cause of portal hypertension; other, less frequent causes are therefore grouped as non-cirrhotic portal hypertension. When it becomes severe enough to cause symptoms or complications, treatment may be given to decrease portal hypertension itself or to manage its complications.

The main symptoms and complications of portal hypertension include: Gastrointestinal bleeding: Black, tarry stools or blood in the stools; or vomiting of blood due to the spontaneous rupture and ...

PEOPLE ALSO ASK

Are there improvements in the management of portal hypertension?

Portal hypertension

Portal hypertension is abnormally increased portal venous pressure – blood pressure in the portal vein and its branches, that drain from most of the intestine to the liver. Portal hypertension is defined as a hepatic venous pressure gradient greater than 5 mmHg. Cirrhosis is the most common cause of portal hypertension; other, less frequent causes are therefore grouped as non-cirrhotic portal hypertension. When it becomes severe enough to cause symptoms or complications, treatment may be given to decrease portal hypertension itself or to manage its complications.

[PDF] Portal Hypertension: Introduction - Hopkins Medicine
https://www.hopkinsmedicine.org/.../_pdfs/liver/portal_hypertension.pdf

Portal hypertension is a term used to describe elevated pressures in the portal venous system (a major vein that leads to the liver). Portal hypertension may be caused by intrinsic liver disease, obstruction, or structural changes that result in increased portal venous flow or increased hepatic resistance.

Portal Hypertension: Pathophysiology, Diagnosis, and ...

<https://onlinelibrary.wiley.com/doi/full/10.1111/j.1939-1676.2011.00691.x>

Mar 07, 2011 - **Portal hypertension** (PH) is the result of increased vascular resistance in the portal circulation, increased portal venous blood flow, or both. In veterinary medicine, where portal pressure is seldom measured directly, the diagnosis of PH often is inferred from identification of associated complications including multiple acquired portosystemic ...
