

12 March 2021

To whom it may concern,

I hereby confirm that I have proofread and edited the manuscript entitled “**Epigenetic modulators for brain cancer stem cells: Implications for anticancer treatment**” by Luane Abballe and Evelina Miele. In doing so I have made every effort to ensure the language used is appropriate for an academic journal paper, and that the message of the manuscript is unaltered.

I can confirm that I am a native speaker of the English language. Additionally, I have been able to draw on more than 10 years’ experience as a research scientist and more than 15 years’ experience as a professional translator.

Kind regards,

Ralf Mouthaan
